Task / chat entry
Resolve context
retrieve memory
Assemble prompt
Harness turn
scoped catalog
Shared dispatch checks
scope · policy · grant · binding · S & P & G & B
allowed?
no: tool error
to the harness
Select handler: read route (left) or write route (right)
Read handler
DAQ · MES · retrieval
summary records
Route guards
run · bounds
Approval
if needed
Human decision
approve / decline
Driver write
bounded batch
DCW admission
H ∩ B ∩ P ∩ R
tuple?
Grade receipt
3 outcomes
Observation
DAQ record
Refuse
no write
Tool result → harness continuation
host text · optional error flag
Software-boundary checks; approval does not reserve equipment state.
approval / refusal
